

*Mountview*  
- villas -

An aerial night-time rendering of a modern residential development. The complex features a long, symmetrical row of two-story houses with dark roofs and light-colored facades, illuminated from within. A central paved walkway runs through the middle of the row. To the right of the main row, there is a larger, more modern building with a glass facade and a flat roof, also illuminated. Adjacent to this building is a tennis court and a parking area with several cars. The entire development is surrounded by a dense forest of palm trees and other tropical vegetation, which is also partially illuminated. A road with white dashed lines runs along the bottom right edge of the image.

**A Permanent  
Retreat  
in the Lap of  
Nature**

**Own a Paradise  
away from  
the Urban Noise**

A home is closely knitted with the people inside it. It is also an extension of the people residing there. Composing a home is to curate the experience of a family for a lifetime. Just as how vital it is to pay attention to the details inside a home, it is even more important to care where we place our home.

We believe in creating a 'home' for our home by placing it at the most welcoming sites, where serenity reflects in the surroundings, as well as from within. Right at the heart of a developing township, away from the loud noise of the urban face of the town, Dreamz group has built a paradise for those who love to live close to nature. In a pristine landscape which so closely protects the sanctity of the mother nature, D'Homz presents you a piece of nature crafted carefully with love and affection. Let's experience home at the lap of the ultimate home-Mother Earth.

With the wild green embracing you around, you will never miss out from the fast-paced world around. With just 3 kilometers away from the town, Mount View brings you the best of both worlds.

Principal Designer

/// The perfect combination of the ultra-contemporary and the traditional Kerala roofing, the mixed designs of exterior and the openings planned on the interior of villas gives you maximum light and ventilation with an eco-friendly atmosphere on the foggy hills of Malamkulam. Both the hardscapes and the softscapes of the entire project have been planned to get maximum utility even in an optimal space. It gives you the joy of experiencing the luxurious ambiance. ///

# The Joy of Togetherness

Be part of a community of your similar taste. Live with fellow nature lovers and build a space of love and mutual cooperation. Where there is love and unity, there is peace. Where there is nature, there is everything. By being a part of the community, you merge into nature equally. What we have planned here is the communion of families with nature as well as with each other.

Mornings

# Reinforcing Rapport!

A home houses emotions more than anything. It is the emotion a home carries that makes it a home for the resident. With unmistakable details that highlights warmth and comfort which Mountview gifts the resident, every morning is special in the most beautiful way. The space that witnesses the union of souls have to reflect and enhance the experience without interrupting it. What we have done here is the smooth amalgamation of nature into the most private and intimate moments of the lovely soul mates.

Tasty Times  
Together

Elegant & Refreshing

# Spatial Luxury

Mountview offers its residents the luxury of space in two alternatives: 3BHK and 4BHK. In both these options, the interior doesn't compromise on the luxury the space has to offer. With two bedrooms with attached bathrooms, living, dining and a kitchen in the ground floor and two bedrooms and a living space in the first floor, the plan also incorporates two open terrace and a balcony there. Without congesting everything in a limited space, the project promises ample breathing space for these elements.

---

**4BHK 1410 Sqft.**

The 3BHK alternative also offers very similar facilities, except for the more spacious open terrace that maintains the balance of the rest of the areas of the house. Other than the internal amenities the project provides, accessibility or ease of transportation is the great advantage of the project. The site is situated just 3 kilometres away from the Central Junction where all the major roads connecting the near towns meet.

**3BHK 1220 Sqft.**

# Blending in with the Environment

As Mountview is a project which stays close to nature, it has been given special attention to bring the nature inside, using small elements.

Mountview is also about being part of a beautiful community, a community of nature and the fellow nature lovers who have also chosen the quiet over the rush and noise.

The interiors of the villa reflect a nude palette rather than a loud one. This is by taking reference and inspiration from the calm atmosphere there is.

# The Dream that Built a Lasting Bond

A group of friends who refused to part ways after school, stayed together by the willingness to dream big and making it a reality. Regardless of their success in their respective businesses and personal lives, they gathered in the name of ‘Dreamz’ under a roof. The big shade Dreamz group provide for the unprivileged in a wide range of areas is commendable. The success and the reputation Dreamz group possess today is the result of the relentless effort they have taken in the field of social service and their contribution to the development of this growing township. D’Homz is another of their project towards the development and advancing the town to world-class standards.
